SEWING COLLECTION INC.

Sewing Collection Inc. is a service provider to retailers, manufacturers, third party logistics and other supply distributors with:

- Packaging and shipping supply needs such as corrugated boxes, sealing tapes, shipping labels, pallet wrap and plastic bags
- VICS/GS1 compliant reused and new hangers
- Warehousing and logistic services
- Recyclable scrap and waste removal services

Founded in 1983, this family owned business has enjoyed growth under the leadership of President and CEO, Tony Tour and his capable team of managers, sales representatives and staff.

MASTER DISTRIBUTOR

As a master distributor and manufacturer, not just a broker, SCI adds value to services that we provide our clients by being able to warehouse your product and use our transportation capabilities to deliver orders to you in a cost efficient and timely manner. And with over 30 years of presence in the industry, we have established partnerships with various manufacturers, factories and transportation companies to ensure you that always provided with highly competitive pricing on material and freight.

VICS / GS1 HANGER SUB-COMMITTEE

SCI is leading provider of recycled VICS/GS1 compliant Hangers and a major contributor in the evolution of sustainable hanger supply chain programs. SCI currently has contracts in place for reused garment hangers with many of the leading retailers throughout the Continental United States.

With decades of experience behind our Reused Hanger Programs, Sewing Collection Inc. is capable of increasing percentage recovery of hangers by region up to the store level using tried and tested methods and reporting. This increases your supply chain efficiency while reducing costs and ultimately increasing your profitability.

LOCATIONS AND DISTRIBUTION CENTERS

Our headquarters are located in Vernon, California. We operate our satellite locations in Union, New Jersey, Columbus, Ohio and Tijuana, Mexico. We also have established warehouses and physical presence in China, South and Central America and the South East.

Major Benefits of Pre-Stretch Include...

- There are many benefits to using pre-stretched film, users get the same (or better) load stability with less product, less physical energy, and greater control.
- Pre-stretched film consumption can be less to one half that of traditional stretch film. This creates a significant cost savings No Edge Damage (no wasted rolls).
- Traditional stretch film rolls often are thrown away because the user drops them and damages the edge.
- Easier to Apply. Lower torque making for safer and easier control. The roll is lighter (about 2/3 less than traditional film) and easier to manage. It's about half the thickness and double the strength.
